

La Capitale Brasserie at Four Seasons Hotel Amman Announces Partnership with the Jordan River Foundation in Support of Economic Empowerment for Communities Across the Kingdom

February 28, 2017, Amman, Jordan

[La Capitale Brasserie](#), located at [Four Seasons Hotel Amman](#), launches a strategic and long term partnership with the Jordan River Foundation (JRF) as part of its corporate responsibility program towards community empowerment work in Jordan. Through this partnership, La Capitale will support JRF's mission to help Jordanians realise their full economic potential and overcome social challenges.

With the month of March starting this week - a month in which is significant for its celebration of women across the globe, most notably International Women's Day and Mother's Day in the Middle East - La Capitale is dedicating all its support in March 2017 towards Jordan River Foundation women-focused empowerment programs in Jordan. Throughout the month of March at La Capitale, JOD 1 will be added to guests' bills and La Capitale will match the donation per table at the end of the month.

The donations will support one of JRF's top priorities in creating economic opportunities for Jordanian women to increase their financial independence, enhance their position in society, increase their livelihoods status and achieve economic empowerment.

[Jordan River Foundation](#) is a Jordanian non-profit, non-governmental organisation established in 1995 and chaired by Her Majesty Queen Rania Al Abdullah.
